

HAND PRINTS

Like your fingerprint, your "hand print" assignment is unique to you

- Begin by creating a **rough draft** on your own paper
- **Trace** your hand
- Write your name along the **lower edge of the palm**
- Pick **5 items** (other than your name) from your "all about me" sheet to write on each finger/thumb (pick things you want others to know about you or you think are interesting)
- **Sketch 3 pictures on the palm** that represent things about you
- After your rough draft is OK'd by teacher, then take a half sheet of the heavy paper from front of room and **work on final copy**
- Make final copy **colorful and eye-catching** and cut out with scissors
